LABOUR GAZETTE

Started in 1921, the *Labour Gazette*, issued monthly, is a journal for all interested in obtaining prompt and accurate information on matters specially affecting labour in India and abroad. It contains statistical information on consumer price index numbers for working class, industrial disputes, absenteeism, trade unions, industrial relations, cases of labour laws, glimpses of industrial awards, labour legislation, etc. Special articles embodying results of enquiries and research relating to wages, hours of work, unemployment, family budgets, etc., are published from time to time.

Annual subscription for the year Sept. 1970—Aug. 1971 is being accepted at Rs. 12.

All amounts are payable in advance in Bombay, in full, either by Money Order or Cheques/Drafts drawn on Bombay Banks.

ALL CORRESPONDENCE AND REMITTANCES SHOULD BE ADDRESSED TO:

The Commissioner of Labour and Director of Employment,
"Commerce Centre", Tardeo, Bombay-34 : WB (India).

The Month in Brief

Consumer Price Index Number for working class—

Bombay, Sholapur and Nagpur Consumer Price Index Number for the month of October, 1970 with the average prices for the month of December 1960 equal to 100 were 183, 188 and 190 respectively. For Jalgaon, Nanded, Poona and Aurangabad Consumer Price Index Number for the month of October 1970 with the average prices for the month of December 1961 equal to 100 were 186, 198, 169 and 187 respectively.

Industrial Disputes—

During August 1970, there were 70 strikes involving 22,286 workers and time loss of 1,66,559 working days, as compared to 82 disputes involving 30,971 workers and time loss of 1,67,099 man days. Further particulars of industrial disputes are given at pages 480 and 500 of this issue.

Absenteeism—

During September 1970, the average absenteeism in the textile industry in the State in the seven important textile centres in the State viz., Bombay City, Nagpur, Jalgaon, Nanded, Akola and Aurangabad amounted to 17.59 per cent against 17.01 per cent in August 1970. For further particulars see pages 480 and 500 of this issue.

Production of Cotton Yarn Spun and Manufacture of cloth

During June 1970, Mills in Bombay City produced a total of 1,41,200 bales of yarn, 2,47,000 kgs. of Miscellaneous goods such as blankets, hosiery and knitted fabrics and packed 1,76,000 metres of cotton goods namely silk, wool, terene, etc., and packed 8,89,31,000 kgs. wearable and non-wearable cloth and those in rest of Maharashtra produced 44,88,000 kgs. of yarn and 2,43,55,000 metres of wearable and non-wearable cloth. The production of cotton yarn, miscellaneous goods and mixed with wool, silk, terene etc. packing of wearable and non-wearable cloth for the whole of Maharashtra amounted to 18,61,30,000 kgs., 3,77,000 kgs., 1,76,000 metres and 11,32,86,000 metres respectively.

The Month in Brief

Price Index Number for working class -

Bombay, Sholapur and Nagpur Consumer Price Index for the working class for the months of September 1970 with the average number for the corresponding months of 1960 equal to 100 were 183, 188 and 190 respectively. For the month of October 1970 with the average number for the corresponding months of 1960 equal to 100 were 186, 190 and 187 respectively.

Industrial Disputes -

In August 1970, there were 70 strikes involving 22,286 working days, as compared to 82 industrial disputes in July 1970 involving 30,971 workers and time loss of 1,67,099 man days. Particulars of industrial disputes are given at pages 480 to 481 and 506 to 507.

Absenteeism -

During September 1970, the average absenteeism in the important textile centres in the State was 17.01 per cent. In Bombay, Nanded, Akola and Amravati, the absenteeism was 17.01 per cent in August 1970. Particulars are given at pages 482 and 506 of this issue.

Production of Cotton Yarn Spun and Manufacture of cloth

During June 1970, Mills in Bombay City produced a total of 1,41,25,000 metres of cotton yarn and 2,47,000 kgs. of Miscellaneous goods such as blankets, hosiery and knitted fabrics and packed 1,76,000 metres of cotton goods such as wool, hosiery and knitted fabrics. The rest of Maharashtra produced 44,88,000 kgs. of cotton yarn and those of miscellaneous goods such as blankets, hosiery and knitted fabrics. The State produced 2,43,55,000 metres of wearable and non-wearable cloth. The production of cotton yarn, miscellaneous goods and mixed goods such as hosiery etc. packing of wearable and non-wearable cloth for the State of Maharashtra amounted to 18,61,30,000 kgs., 3,77,000 kgs., 1,76,000 metres and 11,32,86,000 metres respectively.

Deputy Commissioner of Labour
Maharashtra, Bombay (Office)

Current Notes

Proposed British Industrial Relations Bill in Britain

On 5th October 1970 the Department of Employment and Productivity (DEP) issued a major policy document outlining the Government's proposals for legislation intended to improve Britain's system of industrial relations. The document is intended to form the basis for consultations between the Government and the Trades Union Congress (TUC) and the Confederation of British Industry (CBI) and other interested parties. The Government's proposals will form the basis of a Bill which will be presented to Parliament towards the end of the year. It is intended that the Bill should become the first comprehensive Industrial Relations Act in British history.

In a statement presenting the document Mr. Carr outlined the purpose of the Government's proposals as being to provide a new structure and new institutions for encouraging stable and effective collective bargaining and for resolving industrial conflict. The implementation of the Government's proposals would establish the basic rights and objectives of trade unions and employers, would set standards for conduct of industrial relations and protect the fundamental liberties of individual employees in an industrial society increasingly dominated on both sides by powerful organisations and pressure groups. While it was not expected that an Industrial Relations Act would bring about a radical improvement in industrial relations straight away, the Government believed that a proper framework of law would have a progressive influence in creating an environment within which management, unions, and employees could conduct their relationships with greater confidence and mutual benefit to produce stable and orderly progress to the advantage of the whole community.

Industrial Relations Under Close Scrutiny Since 1965.—The Government's proposals, which will introduce a number of new features into Britain's system of industrial relations, represent the latest stage in a continuing process of critical analysis which has taken place during recent years and in particular since 1965.

In April 1965 the Royal Commission on Trade Unions and Employers' Associations was set up under the chairmanship of Lord Donovan "to consider relations between managements and employees and the role of trade unions and employers' associations in promoting the interests of their members and in accelerating the social and economic advance of the nation, with particular reference to the law affecting the activities of these bodies". The establishment of the Commission thus provided the opportunity for a thorough examination of the whole subject of industrial relations in Britain. The Commission's investigation drew attention in particular to the existence of "two systems" of industrial relations. The one is the formal system embodied in the official institutions.

other is the informal system created by the actual behaviour of trade unions and employers' associations, of managers, shop stewards and workers.

The formal system was based on the 'national' (that is industry-wide) agreements which were supposed to settle issues to which collective bargaining was appropriate—pay hours and so on. In reality industry-wide agreements were found by the Commission to have a decreasing influence on industrial relations. This happened while the importance was growing of bargaining within the firm or office. The employer and unions concerned often did not develop machinery or policy for this, and therefore it was dominated by unwritten understandings and "custom and practice." This decentralisation of collective bargaining resulted in competitive sectional wage adjustments and helped to bring about a growing resort to unofficial and unconstitutional strikes and other forms of industrial action, such as the "workshop pressure" which could hold back industrial progress.

In its report, issued in 1968, the Commission recommended measures to deal with the defects it had found. It favoured the conclusion, in industry-wide agreements, from the problems it described, of formal factory and company provisions and suggested that a register of such agreements should be established by the DEP. Among many other proposals it recommended the establishment of an independent Industrial Relations Commission to investigate and report on industrial relations problems. On the question of industrial relations law, the Commission recommended codification into one comprehensive law, and, while in general stressing its belief in the value of the voluntary system of the British system of industrial relations supported legislation. "Where we are convinced that new institutions need to be created, we will strengthen and to improve our system of voluntary collective bargaining, where the enforcement of individual rights; or where a clear and consistent legal principles is required in the public interest; or where some other action has to be set up for imposing legal sanctions in circumstances in which the voluntary action is likely to be insufficient for the solution of urgent social problems."

The Donovan Commission's recommendations were considered by the Labour Government which in January 1969 published a body of proposals for action in the White Paper "In Place of Strife". The Government accepted most of the Commission's suggestions. In particular it set up the Commission on Industrial Relations (CIR) under the chairmanship of Mr. George Brown, the former General Secretary of the TUC. The White Paper also gave powers for the Government in certain sorts of dispute (the so-called "stoppage" powers), but the Government did not proceed with the introduction of a "solemn and binding undertaking" by the TUC about that it would take in unauthorised stoppages. Other proposals of the Labour Government, which required legislation, had not been implemented when the June 1970 election was called.

During this period the Conservative Party, in Opposition, had consolidated its own programme for reform in industrial relations. In 1968 had published its ideas under the title "Fair Deal at Work" and as part of its election manifesto in June 1970 and after winning

Conservative Government indicated that industrial relations would be one of the first problems it would deal with. Many of the proposals contained in the document just issued by the DEP follow those set down in "Fair Deal at Work". Other proposals are related to some of the recommendations put forward by the Donovan Commission, and in many cases amend existing legal provisions, while in addition certain wholly new concepts are introduced.

Summary of the Main Proposals.—The Government in its policy document stresses the economic and social importance of remedying the shortcomings of industrial relations in Britain. It attaches great importance to voluntary action by managements, trade unions and employees' to improve industrial relations, and proposes to continue to provide assistance in this and to set a good example as an employer. But it states that more is needed and therefore declares its responsibility to make clear in a new framework of law the standard to which it expects the conduct of industrial relations to conform, to establish safeguards for the individual and the community and to provide additional means for resolving disputes about the conduct of industrial relations.

The preparation of a code of industrial relations practice is proposed. This would be put before Parliament within a year of the passage of the Industrial Relations Act. It is intended that it should encourage free, orderly and responsible collective bargaining. While the code would not be directly enforceable, its guidelines are to be taken into account in any proceedings under the new legislations.

The Government proposes the establishment of certain new statutory agencies in the field of industrial relations. These include a system of courts and tribunals to handle industrial relations cases consisting of the existing Industrial Tribunals with extended functions (and generally dealing with issues involving an individual) and a new National Industrial Relations Court (NIRC) with equivalent status to the High Court (to decide collective issues and issues of major importance and to hear appeals from the industrial tribunals. The Commission on Industrial Relations would be put on a statutory basis and given additional functions. A new Registrar of Trade Unions and Employers' Associations would be established. Certain important rights and immunities would be confined to organisations registered with the Registrar; registration would be open to those organisations satisfying basic principles laid down by legislation to protect the public interest and the rights of members and applicants for membership. Registration could be cancelled for failure to so conform.

For the individual, the Government proposes to establish statutory rights to belong to a registered trade union or not, as the individual chooses, and to give employees safeguards against unfair dismissal. The Government is opposed to "pre-entry closed shops", where an individual cannot get a job because he does not hold a union card, and these would be made void.

At the same time, the Government proposes that, if the employer, a registered trade union or 20 per cent of the employees' in an undertaking request it, a ballot should be held among the employees' to decide on whether to establish

"agency shop", that is, one in which a registered union is financially supported by all the employees whether or not they belong to it.

The Government proposes to introduce a new concept of "unfair industrial actions" that is actions seriously contrary to good industrial relations. It will give the right for those who claim to have been directly injured by such actions to seek remedy. For example, it will be an unfair industrial action if an employer dismisses a worker for exercising his right to join or not join a trade union, to dismiss a worker for exercising his right to call or threaten to call a strike against one employer in support of industrial action against another, or against an employer not involved in a dispute to stop him supplying goods etc. to one who is involved in a dispute.

A major proposal and one likely to be especially keenly debated is that there should be a presumption that collective agreements made after a given date should be, unless otherwise specified, legally binding and enforceable contracts. This proposal is based on the need to give a doubtful legal status of collective agreements, on the desirability of making agreements in language making clear what has been agreed, and on the desirability that parties should regard or come to regard the signing of such agreements as a responsible act binding them to honour their commitments.

To secure better procedures for negotiations and for settling disputes, it is proposed that an employer, registered trade union or the Secretary of State could apply to the NIRC for a reference to the CIR about existing or proposed collective agreements, or the absence of them, and that the recommendations of the CIR would be legally binding if the employer or union applied for this and that it was necessary.

To facilitate collective bargaining it is proposed that employers would be required to disclose to trade union representatives information about their proposals in negotiations.

In the case of major disputes which could disrupt the life of the community, it is proposed to grant new powers to the Secretary of State for Employment and Productivity. He would be able to apply to the NIRC for an order for 60 days restraining organisations or individuals from taking industrial action, to induce or finance industrial action which would create national emergencies, or to induce or finance industrial action which would create national emergencies. Every effort would be made to reach a settlement while the order was in force. Where industrial action would lead to danger or grave harm to the community and there is doubt whether it is supported by a majority of the workers involved, the Secretary of State would have power to order a ballot of the workers to be held; the result of the ballot would be binding on the union.

Purpose and Scope of the Proposals.—The document issued in which these proposals are set out in detail is specifically for the benefit of the parties, in particular the TUC and the CBI representing the two sides of industry, and the Government is anxious to receive quickly views and suggestions for a programme for reform. The Secretary of State for Employment

Productivity, Mr. Robert Carr, is scheduled to have consultations with representatives of the TUC and the CBI. On the basis of these discussions and other comments detailed amendments may be made to the proposals. It is anticipated that the principles set out in the document will be incorporated in a major Bill to be presented to Parliament. In view of the opinions expressed about industrial relations and the law and the status and role of trade unions at the recent conferences of the TUC at Brighton and the Labour Party at Blackpool it is expected that there will be much controversy about many of the proposals both outside and inside Parliament.

DISCIPLINE IN INDUSTRY

By

S. R. MOHAN DAS*

One of the most sensitive issues in industrial behaviour sensitive to both employers and employees—is the issue of discipline. The more abstract this expression is kept, the more the sensitivity swears by discipline, but few bother to calmly analyse what exactly they and others mean when this expression is used. Just as loyalty, truth, sincerity etc., which though abstract raise emotions, discipline also evokes emotions, and is used in a

Discipline in industrial working need not have any abstract connotation. Fortunately, however, discipline has not been clearly conceived in terms of the needs of industrial or enterprise working, but in terms of traditional behavioural patterns. To illustrate the point clearly, when managements are asked to explain what exactly they mean by discipline, they would cautiously explain that they expect "obedience to the legitimate orders of management" by all personnel. The foremost and representing any grievances or difficulties they expect to be dealt with subsequently. This is a typically feudal and bureaucratic expectation of discipline. This expectation is to a great extent supported by traditional discipline also.

The weakness in this expectation of the management lies in the fact that industrial, service and technological work organizations are so complex, so diverse and contain so much of inter-dependent personnel that they cannot be brought into the ambit of a simple concept called "order giving and order obeying". An order which is "implicitly obeyed" must be extremely precise and mechanical. It is only such orders as "halt", "March" etc., that could be "explicitly" obeyed. Any order which contains the slightest ambiguity or complexity involving options or discretion to be used by the personnel is not implicitly or explicitly obeyed because it cannot be given a simple meaning. Thus co-relating discipline to implicit or explicit obedience comes to an oversimplification of a complex process. The concept of discipline that prevails among employers is the feudal type of discipline which is extremely simple and the traditions in society were such as to expect decision-making to a patriarch and implicitly obey him, the order-giving and simple order-obedience has some validity. If the work organization was simple, there was no difficulty about

*Shri S.R. Mohan Das is Editor, Labour Chronicle, Bombay

to apply the concepts of discipline that were valid for feudal norms for operating a society involving two major complexities—one of industrial-technological work organizations and the other of democratic functioning involving equality of status for all citizens—represents very poor skills in adaptation and management.

Discipline in industrial working therefore carries different dimensions and needs entirely new skills. First of all discipline in industry is a complex behavioural factor that is new to everybody and as such needs skills of management and not imposition of a meaningless abstraction. One intelligent group of workers who were subjected to pompous prescriptions of such abstract discipline by an employer concerning obedience of orders, decided to do exactly that to teach a lesson. Management had issued orders that no employee should leave his allotted place of work without written permission from the concerned supervisors. The nature of industrial work, however, necessitated constant and continuous movement and liaison among workers of one productive section with other productive or processing sections. The workers and supervisors had their own effective but non-formal and non-bureaucratic methods of doing this. A theoretical O and M expert with no operational experience had just been appointed and it was his superficial impressionistic finding that many workers of one department were often found in another department !!! On the basis of this finding, he told the Chief Executive that there was a lot of wasted movements and time and the Chief Executive quixotically issued the order referred to above.

The moment the order was issued, all the line production men were shocked, but the supervisors were terrified of telling the top boss about the foolishness of this order. Being accustomed to live in a sycophantic culture still, the supervisors thought only of mechanical obedience and they issued the bosses orders down the line. The moment workers heard about the order, at first they reacted with anger, but some of their shrewd leaders told the workers not to get angry, but to scrupulously adhere to the instructions with a vengeance. In fact the slogan they coined was, "Implicit obedience of management orders"! Every worker would punch his card in the morning and go straight to his machine or work spot and stand there. If the supervisor were to ask why he had not started the machines and work, the workers would ask for the day's job instructions. When certain jobs required their having to go to other departments, for every such errand, they would ask for written approval of the supervisor. Within one day, the total absurdity of the management's orders of "implicit obedience" became fully obvious. Normal production became just fractional and the Chief Executive who is provided with daily production figures saw the figures for the day and developed high blood pressure without realising that it was his very foolish order that was the direct cause. He called the Works Manager and when demanding the reason for the low production learnt about the absurdity of his earlier order. By this time a new problem had cropped up, viz., the problem of "management prestige". The problem became one of how to withdraw the stupid order without losing face among employees. This unnecessary consideration delayed matters for another 24 hours before the absurd situation was set right.

present the tool for enforcing discipline in industry is found in the "misconduct" provisions in the Industrial Employees Standing Orders Act. This Act was enacted prior to the independence of India and its provisions were designed for a society that could be hardly called industrial. It maintained a totally civil service emphasis based on understandable conditions. Because such a tool was fashioned by the State, and because it was found convenient to resort to without independent thinking and endeavour, managements mechanically found refuge in this tool hoping that it would be safe and damaging it may be. No management has so far computed the cost of the present type of discipline enforcement in industry; in their satisfaction that they have enforced discipline firmly and allowed "no nonsense" to be done by anyone, managements are willing to incur suicidally heavy costs.

Some employer organizations take the position that employer prerogative should not be wanting to set right wrong disciplinary action in the form of reinstatement should be conceded and employers may be made to pay heavy money compensation for this retention of prerogative. This will demonstrate how the present oblivious employer attitudes are to the cost factor. "I would rather pay a lakh of rupees as penalty or compensation, but I will never have that in my employment" is one of the lasting policy positions many employers have based on an uncompromising vested interest in the first mistake. Can discipline be served by such stances at all? By such stances is discipline sought or obedience sought. Obedience and discipline are two different behavioural patterns. A highly disciplined man need not necessarily be mechanically obedient to any order or edict. In fact creative industrial working requires not obedient people but disciplined people in the sense of self-discipline generated through promotion of better consciousness, participation and involvement of people in enterprise goals.

As stated the Industrial Employees Standing Orders has been one of the causes for preventing skills from emerging in the area of management discipline. It seeks to encompass all complex human behaviour or misbehaviour really into a funny scale of punishment systems. This scale has four peculiar divisions, viz. warning or censure, fine, suspension for a period of not more than 4 days and finally dismissal without notice. There are degrees of punishment in between the 4 days' suspension and dismissal without notice. Because of this, employers and managements often evaluate "misconduct" in a distorted manner in the matter of punishment and do not to use any discretion and mechanically award dismissal as a punishment for even simple and normal aberrational behaviour.

Discipline can only be generated through widespread permeation of value norms in behaviour among all persons in a given setting, whether it is industry, plant, mill, mine, bank or even a family. Such value norms of behaviour relating to discipline can never come about through punishment systems of an antique nature as stipulated in the Standing Orders. The present management systems are designed NOT TO GET discipline but obedience to the will of the boss, to obtain quietness from a crying child. We are now in a s

where we have to ask the question whether we really want obedience or discipline. If discipline is required, we have design entirely different types systems and develop different type of promotional skills from the ones we are resorting to now. The expression "discipline" needs a lot of dissemination and analysis to bring home to all concerned a precise meaning of it. Manager was explaining that he meant "decent behaviour" which is abstract. What he meant was middle class respectability and drawing behaviour befitting an English-knowing babu. These are not likely to generate discipline. A rethinking is necessary.

Consumer Price Index Numbers Class for October 1970

BOMBAY

183—A rise of 1 point

In October 1970, the Consumer Price Index Number (New Series) for the Bombay Centre with base: January 1960 equal to 100 was 183 being 1 point higher than that of October 1969. The index relates to the standard of life ascertained from a family living survey at the Bombay Centre.

The index number for the food group increased by 1 point due to a rise in the average prices of rice, arhardal, urid-dal, chillies dry, chillies green, garlic, cocoanut, ka. The index number of vegetables and fruits sub-group.

The index number for the miscellaneous group increased by 1 point due to a rise in the average prices of hair oil, trunk, tailoring charges for women.

The index number for the Pan, supari, tobacco and clothing group rose 2 points to 180 due to fall in the average prices of pan and tobacco.

The index number for the fuel and light group, the footwear group and housing remained stationary respectively.

SHOLAPUR*

A rise of 3 points

In October 1970, the Consumer Price Index Number (New Series) for the Sholapur Centre with the base : January 1960 equal to 100 was 188 being 3 points higher than the index number of the month. The index relates to the standard of life ascertained from the 1958-59 family living survey in Sholapur City.

The Index number for the food group increased by 3 points mainly to a rise in the average prices of rice, wheat, turmeric, chillies, green chillies dry, tamarind, coconut, etc. The index number for the vegetables and fruits sub-group also rose by 3 points to 165 due to a rise in the average prices of pan le.

The index number for the pan, supari, tobacco, etc. rose by 3 points to 165 due to a rise in the average prices of pan le. The index number for the clothing, bedding and footwear group rose by 5 points to 169 due to a fall in the average prices of clothing and marking.

The index numbers for the fuel and light and the housing remained steady at 171, 160 and 132 respectively.

NAGPUR*

1970—A fall of 1 point

In October 1970, the Consumer Price Index Number (New Series) for the Nagpur Centre with the base: January 1966 equal to 100 was 190 being 1 point lower than that in September 1970. The index relates to the standard of life ascertained during the family living survey in Nagpur City.

The index number for the food group decreased by 1 point to 125 due to a fall in the average prices of wheat, gingelli oil, groundnut oil. The sub-group index for the vegetables and fruits.

The index number for the pan, supari, tobacco, etc. decreased by 2 points to 178 due to a rise in the average price of pan.

The index numbers for the fuel and light, the clothing, and the miscellaneous groups and housing remained unchanged at 129 and 130 respectively.

AURANGABAD*

187—A rise of 1 point.

In October 1970, the Consumer Price Index Number for the Aurangabad Centre with base year January 1966 was 187 being 1 point higher than that in the previous month. This is due to the standard of life ascertained during the survey at the Aurangabad Centre.

The index number for the food group increased due to an increase in the average prices of rice, wheat, jowar (goat meat) and gni.

The index number for the fuel and light group increased due to an increase in the average price of firewood.

The index number for the clothing and footwear and housing have remained stationary at 164, 158 and 164 respectively.

INDEXED*

A rise of 2 points.

In October, 1970, the Consumer Price Index Number for the Nanded Centre with base year January to December 1961 = 100, being 2 points higher than that in the preceding month to the standard of life ascertained during the year 1961 at Nanded centre.

The index number for the food group increased by 2 points due to a rise in the average prices of rice, tur dal, fish dry, onions, brinjals, tomatoes, and a rise in the sub-index number for the miscellaneous group in the food group.

The index number for the miscellaneous group increased by 2 points due to an increase in the average prices of utensils, barbers' oil and barber charges.

The index number for the clothing and footwear group decreased by 2 points due to the decrease in the prices of dhoti, cloth, etc.

The index numbers for the fuel and light group and housing group were 189 and 136 respectively.

CONSUMER PRICE INDEX NUMBER FOR WORKING CLASS FOR AURANGABAD CITY

(Average prices for the calendar year 1970)

Groups	Weight proportional to total expenditure
I. Food	61.4
II. Fuel and Light	5.8
III. Housing	4.6
IV. Clothing and Footwear	12.5
V. Miscellaneous	15.7
Total	100.0

Consumer Price Index Number

*Details regarding the scope and method of compilation are given on pages 1107 to 1112 of the March 1966 issue of Labour Gazette.

Note.—To obtain the equivalent old index number on base 1961 = 100, the new index number on base 1961 = 100 should be multiplied by a factor of 2.45.

JALGAON*

186 Index remained stationary

In October 1970, the Consumer Price Index Number for Working Class for Jalgaon City with base calendar year 1961, equal to 100 was 186 being no change than that in the preceding month. The index relates to the consumption of a pattern revealed during the year 1958-59 family living survey for Jalgaon City.

The index number for the food group increased by 1 point to 205 due to a rise in the average prices of turdal, urid-dal (with husk), fish fresh, chillies dry, coriander, mixed spices and gur.

The index number for the fuel and light group remained stationary at 176.

The index number for the housing remained constant at 136.

The index number for the clothing and footwear group decreased by 3 points to 154 due to a fall in the price of long cloth.

The index number for the miscellaneous group remained unchanged at 159.

Final Index Number 186.

Index Number for Group V						159

(R) Quotation for July 1970.

POONA CENTRE*

... a fall of 1 point.

In October 1970, the Consumer Price Index Number for working class for Poona City with base calendar year 1961 equal to 100 was 169 being 1 point lower than that in the preceding month. The index relates to the consumption pattern revealed during the year 1958-59 family living survey for Poona

The index number for the food group decreased by 2 points to 184 due to the rise in the average prices of groundnut oil, vanaspati, milk, chillies (dry), onions, tomatoes, other vegetables and banana.

The index number for the fuel and light group remained stationary at 165.

The index number for housing remained stationary at 117.

The index number for clothing and footwear group remained stationary at 156.

The index number for the miscellaneous group increased by 1 point to 154 due to a rise in the average prices of panleaf and hair oil.

Final Index Number 169.

Twenty Agreements, 14 Settlements and 11 Awards were registered under the Bombay Industrial Relations Act, 1946, and Bombay Industrial Relations (Extension and Amendment)

INDUSTRIAL DISPUTES IN MAHARASHTRA STATE DURING AUGUST 1970

*Disputes in August 1970 ..	70
Work people involved ..	22,286
Working days lost ..	1,66,559

The number of Strike and wage earners affected due to strikes activity in Maharashtra State during the month of August 1970 declined as compared to the previous month.

The figures for the month under review show 70 disputes in progress involving 22,286 workers and a time loss of 1,66,559 mandays as compared to 82 disputes in July 1970 with 30,971 workers affected and a time loss of 1,67,099 mandays.

Five of the total disputes in progress during August 1970 were in the Textile Industry, 26 in the Engineering Industry and the remaining 39 were in other industries.

Fifty-two of the total disputes involving 14,557 workers were actually recorded during the month while 27 disputes involving 7,729 workers were carried over from the previous month.

The following table gives an analysis of industrial disputes by groups of industries :—

Industry Group	Number of disputes in progress			Number of Work-people involved in all disputes in August 1970	Aggregate man-days lost in August 1970
	Started before beginning of August 1970	Started in August 1970	Total		
1	2	3	4	5	6
Textile	1	4	5	930	1,409
Engineering	12	14	26	9,241	90,223
Miscellaneous	15	24	39	12,065	74,927
Total, Aug. 1970.	28	42	70	22,286	1,66,559
Total, July 1970	20	62	82	30,971	1,67,099

*The word "disputed" in the official sense means an interruption of work and it is here used in that sense as virtually synonymous with "strike". In compiling used statistics of the industrial dispute, however, disputes in which 10 or more persons are involved are included.

...iv-six of the disputes arose over questions of "pay, allowances and bonus issues", 20 related to "retrenchment and grievances about personnel" to leave and hours of work" and the remaining 13 were to "other

Of the 52 disputes that terminated during the course of the month, 8 settled either entirely or partially in favour of the workers 29 in favour of the employers while the result of the remaining 15 disputes were

PROGRESS OF IMPORTANT INDUSTRIAL DISPUTES IN MAHARASHTRA STATE DURING THE MONTH OF AUGUST, 1970

Bombay

Ceat Tyres of India Limited, Bombay.—The strike of the 988 workers employed in the Ceat Tyres of India Limited, Bombay which started on April 13, 1970 over the workers demand for discontinuance of Relay system in Dip Unit Section of Textile Department, ended on 10th August, 1970 as the workers resumed work on the same day as per advice given by the office of the Commissioner of Labour and Director of Employment, Bombay. Due to this strike 96,418 mandays were lost.

Mukund Iron and Steel Works, Bombay and Thana.—Out of the total complement of 3,486 workers employed in the Mukund Iron and Steel Works, Bombay and Thana, 127 workers stopped work from May 22, 1970 protesting against the charge-sheet given to the workers. 2,467 workers were indirectly affected. The strike was in progress till the end of the August, 1970 without any material change.

Messers. Caprihans (India) Private Limited, and its another concern, Bombay and Thana.—The total complement of 673 workers employed in the Messers. Caprihans (India) Private Limited, and its another concern, Bombay struck work from July 2, 1970, protesting against the show cause notice served on a Supervisor. The strike ended on 31st August, 1970 as an agreement was reached between the parties through the intervention of Commissioner of Labour Office, Bombay. Due to this strike, 28,808 mandays were lost.

ABSENTEEISM STATISTICS FOR THE MONTH OF SEPTEMBER 1970

The Textile Industry

The statistics of absenteeism in the Textile Industry in the State of Maharashtra are compiled from the mills at seven important Textile Centres in State, viz., Bombay City, Sholapur, Nagpur, Jalgaon, Akola, Aurangabad and Nanded.

Returns were received from 64 Mills i.e. 86.49 per cent. of the 74 Mills reported as working at these Centres during September 1970. The average absenteeism in the Textile Industry in these centres amounted to 17.59 per cent. as against 17.01 per cent. in the previous month.

The following table shows the average percentage of absenteeism at the seven centres for the month of September 1970, on the basis of information for all Working shifts :—

Centres	Number of Mills		Percentage col. 3 to col. 2	Average percentage of Absenteeism	
	Working	Furnished information		August 1970	September 1970
1	2	3		5	6
1. Bombay ..	54	48	88.89	16.30	17.55
2. Sholapur ..	6	6	100.00	27.13	21.53
3. Jalgaon ..	3	2	66.67	10.29	10.92
4. Nagpur ..	2	1	50.00	20.79	16.58
5. Akola ..					
6. Aurangabad ..	1	1	100.00	13.49	15.22
7. Nanded ..	1	1	100.00		26.44
8. Other Centres ..	7	5	71.43	11.44	12.23
All Centres ..	74	64	86.49	17.01	17.59

The Engineering Industry

In the Engineering Industry in Bombay City the average absenteeism in representative Workshops was 17.78 per cent. as against 17.26 per cent. in the previous month.

The percentage of absenteeism in Bombay Port Trust amounted to 20.55 in the Chief Engineer's Department and 19.50 among the monthly paid labourers employed in the Port Trust Docks. The percentage of absenteeism in 5 out of 6 concerns employing more than 500 workers in the States comes to 15.59 per cent.

NIGHT SHIFT IN COTTON MILLS IN BOMBAY CITY

At the beginning of September 1970 there were 52 mills in Bombay City night shift and the number of men doing night work was 82,497.

LABOUR TURNOVER IN COTTON TEXTILE UNDERTAKING FOR SEPTEMBER 1970.

In all 75 Cotton Textile undertaking in Maharashtra State employed 2,41,619 workers on an average recorded an average percentage of Labour Turnover of 1.88 for the month of September 1970. The increase in employment of Labour (accession) was reported to be 0.83 per cent. Whereas the percentage of decrease in employment (separation) registered in the total labour employed in all undertakings was 1.05. The following table indicates the relation of Labour Turnover with the size of establishments :—

LABOUR TURNOVER FOR MAHARASHTRA STATE FOR SEPTEMBER 1970

Group	No. of Workers	Rate per 100 workers				
		Accession	Separation	Flux	Labour Increase	Labour Decrease
Up to 100	206	7.28	9.22	16.50		1.94
101 to 500	1,294	1.39	3.88	3.32	0.54
501 to 1000	2,414	0.79	0.54	1.33	0.25
1001 to 2000	12,102	0.63	2.22	2.85	1.59
More than 2000	2,25,603	0.83	0.93	1.83	0.75
All Establishments	2,41,619	0.83	1.05	1.83		0.22

It may be seen that the rate of labour turnover was the highest viz. 16.50 per cent. in establishments engaging upto 100 workers, while it was lowest viz. 1.33 per cent. in undertakings employing 501 to 1000 workers.

The table also reveals that with the exception of undertakings employing upto 100 workers the percentages of separations are negligible among different sizes of establishments.

Considering the labour turnover according to centres, it may be observed that the highest rate of labour turnover viz. 6.15 per cent was recorded in Aurangabad Centres, whereas Dhulia and Jalgaon area registered the smallest rate of 0.33 per cent. The following table indicates percentages of labour turnover in cotton textile undertaking in different areas of the State :-

CENTRE-WISE LABOUR TURNOVER FOR SEPTEMBER 1970

Centre	No. of Workers	Rate per 100 workers				
		Accession	Separation	Flux	Labour Increase	Labour Decrease
Bombay ..	2,00,529	0.94	1.08	2.02	0.14
Sholapur ..	16,872	0.41	1.33	1.74	0.92
Khandesh ..	6,705	0.06	0.24	0.30	0.18
Aurangabad ..	472	3.18	2.97	6.15	0.21
Nagpur ..	14,454	0.17	0.71	0.88	0.54
Other Centres ..	2,587	0.43	0.43	0.86
All Centres ..	2,41,619	0.83	1.05	1.88	0.22

As regards labour turnover in Bombay City more or less the same trends are noticeable in the State as a whole which could be seen from the following table :-

LABOUR TURNOVER FOR BOMBAY CITY FOR SEPTEMBER 1970

Group	No. of workers	Rate per 100 workers				
		Accession	Separation	Flux	Labour Increase	Labour Decrease
Up to 100	122	12.30	15.57	27.87	3.27
101 to 500	231	0.87	0.87	..	0.87
501 to 1000						
1001 to 2000	9,670	0.79	2.23	3.02	..	1.44
Over 2000	1,90,506	0.94	1.01	1.95	0.07

The percentage of labour turnover in establishments engaging upto 100 workers was 27.87 whereas it was only 0.87 in concerns engaging more than 2000 workers.

In Sholapur the highest rate of labour turnover of 4.88 per cent was recorded in mills engaging 1001 to 2000 employees. This can be seen from the following table :-

LABOUR TURNOVER FOR SHOLAPUR FOR SEPTEMBER 1970

Group	No. of workers	Rate per 100 workers				
		Accession	Separation	Flux	Labour Increase	Labour Decrease
Up to 100 ..	37
101 to 500 ..	175
501 to 1000 ..	732	1.50	1.78	3.28	0.28
1001 to 2000 ..	1,044	4.88	4.88	4.88
Over 2000 ..	14,884	0.40	1.80	1.48	0.68
All Establishments	16,872	0.41	1.33	1.74	0.92

WORKING OF THE TRADE UNIONS ACT, 1926, MAHARASHTRA STATE

REVIEW FOR THE MONTH OF OCTOBER 1970.

On the 1st October 1970, there were 2588 Trade Unions registered under Trade Unions Act, 1926.

29 Trade Unions were registered under the Trade Unions Act, 1926, by the Dy Registrar of Trade Unions, Bombay, the Deputy Registrar of Trade Unions, Poona, the Additional Registrar of Trade Unions, Nagpur, and the Deputy Registrar of Trade Unions, Aurangabad, during the month of October 1970, in the State of Maharashtra. They are as follows :—

Bombay Division	14
Poona Division	3
Nagpur Division	10
Aurangabad Division	2
Total	29

The Notices of dissolution of the Unions viz. (1) "Patel Volkart Employees' Union (Registration No. 4215) and (2) "Carona Sahu Retail Shops Employees' Union (All India) (Registration No. 6119) were registered on 21st October 1970, and 20th October 1970, respectively under section 27 of the Trade Unions Act, 1926.

The total number of registered Trade Unions thus stood 2615 at the end of the October 1970.

Serial No	Name of the Union	Address	Registration No. and Date	President	General Secretary.

Information for August 1970

1. Prescriptions issued during the Month	2,53,192
2. The number of insured workers attending Diagnostic Centres	15,418
3. The X-Ray Plate taken during the month	1,977
4. The Blood Examination	2,414
5. Number of persons admitted in the Hospital	T.B. = 166 + General: 2,794
6. The total number of beds occupied during the month	T.B. = 9377 + General: 39,514 48894
7. Payment made to the Chemists during the month	Rs. 4,73,233.31
8. Payment made to Insurance Medical Practitioners during the month	Rs. 29,42,189.45

FATAL INDUSTRIAL ACCIDENTS DURING SEPTEMBER 1970

During September 1970, 8 work people were reported to have died from accidents during the course of their employment. Detailed figures for various accidents are given below:—

Food except beverages	1
Sugar factories and regineries	1
Food except beverages.	1
Manufacture of miscellaneous food preparations:—	1
Manufacture of miscellaneous food preparations	1
Manufacture of edible oils (other than hydrogenated oils)	1
Cotton mills	1
Silk mills	1
Rubber and rubber products	1
Tyres	1
Rubber and rubber products	1
Tyres	1
Chemical products (and chemical products.)	1
Vegetables and animal oils and facts (except edible oils).	1
Total	8

No case of industrial disease was reported during the month and there was no from such disease.

EMPLOYMENT SITUATION IN MAHARASHTRA STATE FOR THE MONTH OF OCTOBER 1970.

The upward trend in placements which was evident during the last month has been maintained during the month under review also.

Employment Exchanges succeeded in placing 2875 applicants in October 1970 as against 2764 in September. The rise in placements is observed in all Sectors except in State Government establishments.

A marked rise in placements was observed in the Private Sector where the number of applicants placed rose to 791 in October from 384 in September. In Central Government and Quasi Government establishments also, the number of applicants placed by Employment Exchanges rose to 650 and 340 respectively from 636 and 322 in the last month. There was, however, a fall in the applicants placed in State Government establishments from 1422 in September to 1094 in October.

Vacancies notified by employers during October 1970 however showed a downward trend. Total demands notified to Employment Exchanges during the month declined to 6839 from 7134.

An analysis of vacancies notified indicates that there was fall in the vacancies in the State Government and Private Sectors, whereas there was slight rise in the vacancies received from Central Government and Quasi Government establishments.

1618 vacancies were notified by Central Government establishments as against 1453, 1863 by State Government establishments as compared to 2324, 669 by Quasi Government establishments as against 657 and 2689 by Private employers as compared to 2700.

There was also a fall in the registration effected by Employment Exchanges in October, which receded to 26441 from 33041 in the previous month. There were 323173 applicants on the Live Registers of Employment Exchanges at the end of October, 1970.

Appreciation of Statistics Rendered

(a) *Registration*: 26441 applicants were registered with Employment Exchanges in October 1970 as against 33041 in September, 1970.

(b) *Vacancies notified* 6839 vacancies were notified to the Employment Exchanges in October 1970 as against 7134 in September 1970.

(c) *Submission* : 24693 submission were made by Employment Exchanges in October 1970 as against 27511 in September 1970.

(d) *Placement*: 2875 applicants were placed by Employment Exchanges in October 1970 as against 2764 in September 1970.

(e) *Employers using the Exchanges* 1478 employers notified vacancies to Employment Exchanges in October, 1970.

(f) *Live Register* : There were 3,23,173 applicants on the Live Register of Employment Exchanges at the end of October 1970 as against 3,25,423 in September 1970.

Vacancies and Surplus of Manpower.

Employment Exchanges in Maharashtra State reported in general the following hard-to-fill occupations during the month.

Good Typists, Stenographers, Compounders, Trained Teachers, Nurses, Store-keepers and Librarians.

Surplus:

There is a general surplus of applicants of fresh S.S.C., unskilled and semi-skilled workers.

Vacancy Clearing

(a) Fresh vacancies circulated by S. E. C. O.	11
(b) Vacancies filled during the month—	
(1) Vacancy Exchanges	
(2) Other Exchanges	
(c) Vacancies at the end of the month under limited or unlimited circulations.	
(1) Less than 3 months	646
(2) More than 3 months but less than 6 months	321
(3) More than 6 months	296

Interesting Placements

- Ratnagiri* .. (1) One applicant was placed as Junior Engineer (Civil) under the Superintendent Engineer, Deccan Irrigation Construction Circle No. III, Satara on Rs. 386 p.m.
- Sholapur* .. (1) One B. E. (Civil) applicant was placed as Junior Engineer with the Executive Engineer, Ujani Canal Division No. 1, Dhond on Rs. 386 p.m.
- Amravati* .. (1) 8 B. E. Civil Engineers were placed as Junior Engineer under the Superintending Engineer, B. and C. Circle, Amravati and under the Superintending Engineer, Nagpur Public Health Circle, Nagpur on Rs. 401 p.m.
- Poona* .. One candidate was placed as Demonstrator with the Commandant, Armed Forces Medical College, Poona-1, on Rs. 335—425 p.m.
- S. R. E. E., Bombay* .. Two N. C.O.'s of Indian Air Force were placed with the Indian Tobacco Co. Ltd., in the supervisory post on Rs. 525 p.m.
- Osmanabad* .. One lady graduate candidate was placed as warden with Divisional Social Welfare Officer, Aurangabad, on Rs. 421 p.m.

- R.E.E., Bombay .. (1) One B. E. (Civil) Engineer was placed with K.S. Somaniya's Polytechnic on Rs. 450 + allowance.
- (2) One Mechanical Engineer was placed with the Ralph M. Parsons of Asia on Rs. 450 + Allowances.
- Nasik .. (a) One candidate holding a 1st Class degree in Electrical Engineering was placed as a Junior Engineer with the Executive Engineer, Public Health Work Division, Nasik on Rs. 401 p.m.
- (b) One diploma holder in Civil Engineering was placed as a Journeyman with the Manager, India Security Press, Nasik, on Rs. 374 p.m.
- (c) Two Diploma holders in Civil Engineering was placed as Overseer with the Executive Engineer, Building and Communication Division, Nasik on Rs. 307 p.m.

Book Reviews

LABOUR PROBLEMS AND INDUSTRIAL DEVELOPMENTS IN INDIA

BY

SHRI D. SANJIVAYYA

(Published by Oxford and IBH publishing company, New Delhi, Rs. 32)

The book under review is a select collection of speeches and articles which the author has delivered in various meetings, conferences and seminars and contributed to prominent periodicals during the years 1964-67. The author, during this period was the Union Cabinet Minister holding charge of the two important Central Ministries namely Labour and Employment and Industries. This was the period when the country was passing through critical times. The Chinese aggression in 1962 and war with Pakistan in September 1965 had put the entire economy of the country to severe strain. Mobilisation of all resources and more production was the cry of the hour. Labour and Industry had a very major role to play and the author of the book had ably and honestly given the account of the part played and the valuable contribution made by the Labour and Management in strengthening the defence efforts by applying self restraints. The book with a thought providing Forward by the President of India contains valuable information, useful to wide range of readers including Planners, Administrators, Employers, Workers and Students of social sciences. The long range of topics discussed in the book containing 296 pages covers varieties of subjects concerning Labour and Industry. Its title cover is artistic and printing and get-up attractive. The price of Rs. 32 however appears to be excessive.

—S. W. A.

Cases Under Labour Laws

BEFORE Shri B. A. EKBOTE, ADDITIONAL AUTHORITY UNDER
THE PAYMENT OF WAGES ACT, BOMBAY

MISCELLANEOUS APPLICATION No. 144 OF 1970.

Noor Mohammed Alibux and Others v. Messrs. Filmlaya Pvt. Ltd.
Bombay 58-AS.

The Payment of Wages Act, 1936. Original 45 applications treated as a single application dismissed for default by one common order—Application by the Authorised representative of the applicants requesting for restoration of the original application. Request Granted.—Held fresh authorisation to act on behalf of the employed person not necessary—Held further that the present application dismissed not on merits and fell under proviso to Rule 8 of the Payment of Wages Rules. Remedy open to the applicant is therefore by way of restoration of application for setting aside the dismissal—Held further that one application for restoration of the group applications dismissed for default is maintainable when the group applications are treated as a single application.—Held the submission of the application is within the prescribed time limit and non-appearance has been satisfactorily explained to the Court. Original Applications are therefore restored.

This is a consolidated application for restoration of the original applications Nos. 108 to 152 of 1970 which have been dismissed for default on 14 August 1970 under a common order. The application is filed by the authorised representative of the applicants Shri V. B. Kulkarni, and it is made on affidavit duly sworn and signed before the Additional Registrar. Shri Kulkarni states that the applicants were not called to remain present in the Court on 14th August 1970 as on that day preliminary points raised by the Opposite Party were to be argued and that his own personal non-appearance was due to the fact that he was on his legs before the Industrial Tribunal in Ref. (IT) No. 421 of 1965.

(2) Opposite Party resists the application mainly on the grounds that the affidavit filed by Shri V. B. Kulkarni is no affidavit at all and hence it cannot be taken into consideration. That the case was not fixed for arguments on preliminary points only, but it was fixed for final hearing. Opposite Party's evidence was ready and actually the case was to be decided on merits and the order passed by this Court is in substance an order of dismissal of the applications on merits rather than in default. Applicants should have remained present when Shri V. B. Kulkarni was busy elsewhere. That there is no sufficient cause shown for the non-appearance of applicants or their representative and therefore this application should be dismissed.

(3) It is argued on behalf of the Opposite Party that the authorisation of applicants in favour of Shri V. B. Kulkarni had come to an end on the dismissal of the applications and Shri Kulkarni had no locus standi to make the present application, as this is an entirely a separate and independent proceeding. It is also contended that a single application for restoration of number of original applications cannot lie and that at the most the present application will

deemed to be on behalf of the applicant Noor Mohammad Alibux whose name appears in the application. There being no application on behalf of the other applicants the prayer for restoration of all the applications dismissed for default cannot be granted. Shri Kothari, advocate appearing on behalf of the Opposite Party, further argued that the order of dismissal of the applications falls under O. 17, R. 3 of the C.P.C. and the application for restoration of the original application is not a proper remedy. The whole argument is fallacious and appears to have been based on the wrong notions that the application under the Payment of Wages Act amounts to a suit, this Court is purely a Civil Court and that the proceedings before this Court are governed by all the provisions under the C.P. Code. It is settled law that a general provision must yield to a special provision providing for particular cases (See 1953 S.C. 252 and 1949 Bom 402) and a remedy provided by a special Statute must be pursued. Payment of Wages Act is a special Act and the Authority appointed under the Payment of Wages Act cannot travel beyond the scope of the Act which creates special jurisdiction and lays down special procedure to deal with the rights created under the Act itself. The Authority has to follow the procedure as laid down in Rules framed under the Act. Section 15(2) of the Act enumerates the persons who are competent to apply for direction for payment of delayed or deducted wages. An official of registered Trade Union is one of such persons who can bring application on behalf of an employee. Rule 3 of payment of Wages Rules prescribes the form of application and R. 4 speaks about the authorisation to act on behalf of an employed person. There is a prescribed form 'D' for authorisation to be given under section 15 of the Act which shows that the official of the Union is not only authorised to act on behalf of the employed person before lower Court under section 15 but he is also authorised to act on behalf of the employed person before the Appellate Court under section 17 of the Payment of Wages Act. The miscellaneous proceeding for restoration of the original application dismissed for default being the part and parcel of the original application, no fresh authorisation to act on behalf of the employed person is necessary. It will be an anomalous position that for the Miscellaneous proceeding a fresh authorisation is required but as soon as the original application is restored the previous authorisation of the representative is also restored or revived. The contention of the learned advocate of the Opposite Party that the authorisation of Shri V. B. Kulkarni had come to an end on the dismissal of the original applications and that he has no locus standi to make this application is without substance. Under the provisions of the C.P. Code no fresh authorisation is needed in such proceedings. Even after the decree no fresh Vakalatnama is necessary for the execution proceeding as it is held that execution proceedings are in continuation of the original proceedings. There is no provision in the Payment of Wages Act itself for the dismissal of the application for default and or for its restoration This is provided under Rule 8(3) and or proviso to Rule 8 of the Payment of Wages Rules which is a special provision. Rule 11 does not extend the application or provisions of C.P.C. beyond what is provided under section 18 of the Payment of Wages Act, therefore, provisions of O. 9 or O. 17 of the Civil Procedure Code are not applicable to the proceedings under the Payment of Wages Act. O. 9 of the C.P.C. deals with appearance of parties and consequence of non-appearance and O. 17 deals with adjourn-

ments, obviously in the presence of parties. 0·17, R. 2 prescribes the procedure if parties or either of them fail to appear on the date fixed. This Rule specifically lays down that under these circumstances the provisions under 0·9 will apply. 0·17, R.2 of the C.P.C. applies to cases where the hearing is adjourned no matter for what purpose, and the parties or any of them fail to appear at the adjourned hearing. When the suit is dismissed for default under Rule 2 of 0·17 C.P.C. the remedy provided is under 0·9. In the case where there is a default under R. 3 of 0·17 coupled with default of appearance under R. 2 the Madras High Court has held that the Court should proceed under Rule 2 and dismiss the suit for default, so that plaintiff may have an opportunity to apply under 0·9 R. 9 to set aside the dismissal (See, 33 Mad. 241; 41 Mad. 286 and 70 Mad. 688). Bombay High Court has also held that in such a case Court should proceed under Rule 2 of 0·17 and dismiss the suit for default (See 27 BLR 477 Bassayya V/s. Allayya) and (20 Bom. 736 Shrimant V/s Smith). Allahabad and other High Courts held similar view (47 All. 140). Even if it is admitted for the sake of argument that 0·9 and 0·17 of the C.P.C. do apply to proceedings before this Court the original applications were dismissed for default under 0·17, R 2 and the remedy open to the applicants is by way of restoration application under 0·9, R 9 C.P.C. for setting aside the dismissal. The applications have not been dismissed on merits as alleged. The present application falls under proviso to Rule 8 of the Payment of Wages Rules.

(4) Under Section 16 (3) of the Payment of Wages Act the Authority is empowered to deal with any number of separate pending applications presented under section 15 in respect of persons belonging to the same unpaid group as a single application. In the instant case 45 applications were treated as a single application. Opposite Party filed a common written statement in all these applications. This Court dismissed for default all the 45 applications together by one common order treating all the applications as one single application. In the circumstances I am unable to appreciate the argument of the learned advocate of Opposite Party that one application for restoration of all the applications is not maintainable. When the group applications are treated as a single application and dismissed for default under one order, only one application for restoration of the group applications dismissed for default is maintainable. It is sufficient to mention the numbers of all such original applications in the restoration application. It is nowhere laid down in the Rules that in such a case separate applications should be filed. What is not prohibited under the Rules should be taken as permissible. After the restoration of the original applications to file they are given separate numbers. The contention of Opposite Party is not sound. I hold that Shri V. B. Kulkarni, Trade Union official is competent to bring this application on behalf of all the applicants without filing fresh authorisation. His affidavit is valid.

(5) The claims are based on an Award of the Industrial Tribunal. Applicants did not want to lead any evidence. It was a question of interpretation of the Award. Opposite Party raised certain preliminary points. Applicant's personal appearance on the date fixed was not absolutely necessary. Their representative was busy before the Industrial Tribunal in Ref. (I.T.) No. 421 of 1965 and he could not appear in time. He appeared at 3 p.m. as is evident from the note

made at the foot of roznama of that day. The period of limitation fixed for making application for restoration is 30 days and the application is made within time. The mere fact that this application was made subsequently and not on the same date is no good ground for rejecting it. It is common knowledge and experience that the advocates and representatives of parties are busy elsewhere and the cases have to be either adjourned or proceedings have to be taken for dismissal for default or *ex parte* order. Shri V. B. Kulkarni appeared late on the date fixed when the applications were dismissed. It is not that he did not appear at all. In my opinion he has been able to satisfy this Court that his non appearance was not deliberate intentional and there is good and sufficient cause for restoration of the original applications to file. The contentions raised on behalf of the Opposite Party are ruled out. Hence

Order

Application is granted and the original applications No. 108 to 152 of 1970 are restored to file. Disposed of. No order as to costs.

Bombay.

Dated 19th September 1970.
