In August 1979, the Consumer Price Index Number for Working Class (New Series) for the Jalgaon Centre with base year January to December 1961 equal to 100 was 364 being 11 points higher than that in the preceding month. The index relates to the standard of life ascertained during the year 1958-59 family living survey at Jalgaon Centre.

The index number for the fuel and light group increased by 1 point to 421 due to a rise in the average price of kerosene.

The index number for housing remained steady at 158 being a six monthly item.

The index number for the clothing and footwear group decreased by 2 points to 329 due to a fall in the average prices of long cloth and coloured poplin.

The index number for the miscellaneous group decreased by 3 points to 279 due to a fall in the average prices of panleaf and utensils.

Farm Labour Wages in Tamil Nadu Revised

The Tamil Nadu Government has revised the minimum wages of agricultural labour with effect from September 15.

The revised rates varying from Rs. 5 to Rs. 12 per day depending upon the nature of employment would be applicable to the whole State, except the seven talukas in East Thanjavur, where the wages fixed under the Tamil Nadu Agricultural Labourer Fair Wages Act are in operation.

The revised rates, according to a Government press release, are: Employee engaged in ploughing with bullocks and ploughs brought by him—Rs. 12 per day; those engaged in ploughing with bullocks and ploughs supplied—Rs. 7 per day; those engaged in harvest in respect of paddy crop—Rs. 7 per day or cash value of the worker's share in 1/8th of the gross yield of produce, whichever is higher; those engaged in harvest in respect of crops other than paddy—Rs. 7 per day; those engaged in transplanting of weeding—Rs. 5 per day and employees engaged in other agricultural operations like trimming bunds climbing trees, poultry and dairy farming—Rs. 7 per day.

The full text of Governor's appeal is as follows

The National Family Welfare Fortnight will be observed all over the country from 16 September. In Maharashtra, we are extending it till October 15; making it a whole month. During this period our effort will be to emphasise once again the need for limiting families in their own interest as well as in the interest of the nation.

Through various health and other measures the population of our country is increasing rapidly. This is to a considerable extent defeating our effort to raise the standard of living for all our people and improve their quality of life. When we have a large family the mother suffers as well as the children. Every child which is brought into the world must have proper care and attention from his parents. We all want him to be a healthy and happy child, to have food, education and other necessities of life. But is it possible to achieve this when we have too many children? We can also easily imagine the strain it is on mothers. Their health suffers in many ways.

Ever since Independence we have been trying to achieve economic growth for all sections of our people but this continuous and rapid growth in population is coming in our way all the time. Hence this population policy to limit the growth of our families. This requires the active co-operation of every family in urban areas as well as in the vast countryside, among the rich or poor, educated or uneducated. As citizens of this great country we can each do his or her bit. We do not, in limiting our families, make any great sacrifice but rather we reduce our own suffering and increase our own well being. We also lighten the burden on the State which is under an obligation to provide work, education and other necessities for everybody but the resources of the country are not limitless.

I believe our people will co-operate if they realise how vital family planning is for the good of our country. For carrying the message to every hearth and home, not once but a number of times, we need the co-operation of governmental and semi-governmental agencies, voluntary organisations, trade unions, teachers and leaders of public opinion and community leaders.

May I earnestly appeal to all sections of society, to all citizens who have the welfare of the child, the mother and the nation at heart, to heed this call to limit our families and help to make the country strong and prosperous.

Maximum Child Labour in India

India has the largest child labour force in the world, with 16.5 million children between the ages of five and fourteen working in both rural and urban areas. The Anti-Slavery Society has reported:

In a report to the sub-commission of the UN/Human Rights Commission, the society noted that the situation was due to the acute economic conditions. Any solution of the problem of child labour would have to allow children to work to earn the incomes they need and, at the same time, protect them from having to work in damaging, exploitive and hazardous conditions, it said.
